BOUGAINVILLEA TEMPLE FIRE **(Red Bush Bougainvillea)**

This new Bougainvillea is in great demand because of its tendency to grow as a bush — compact and uniform. During many months of the year deep red flower bracts are produced. Wonderful for use as a low hedge planting or for planting in redwood containers. Does best in full sun.

Minimum temperature endurance plus 28°F.

3" pots .45 1-gal. .60

CALLIANDRA INEQUILATERA **(Pink Powder Puff)**

Brilliant pink stamens resembling large powder puffs appear on this popular tropical shrub in the spring. The fine feathery, graceful foliage makes this plant a "stand out" when planted with the broad leaf tropicals. Can be used as a hedge plant, in mass tropical plantings or as a foundation planting. Does well in full sun or part shade.

Minimum temperature endurance plus 30°F.

3" pots .40 1-gal. 1.25

OCHNA MULTIFLORA **(Birdseye Bush)**

This rare medium sized shrub is wonderful for specimen planting or for that "something different" planting. The long, finely-toothed leaves with their bronzy tint give this shrub individuality. A shrub that attracts attention wherever it is planted. Dark yellow flowers are produced in the spring followed by bright red fruit which is later followed by shiny black seeds.

Minimum temperature endurance plus 20°F.
